STEAM Week: Week Beginning Monday 28th June

Dear Parent/Carers,

This year we have slightly changed our usual 'STEM week' to include the Arts so we will be focusing on **Science, Technology, Engineering, Arts and Maths** (STEAM). Our topic for our STEAM Week this year will be 'Our Wonderful World'. We have some exciting activities, 'hands on' experiments and investigations and art and design activities planned as part of this week. We will be looking at some famous inventors and scientists, the amazing things that they created and discovered, and the impact they have had on the world as well as having the opportunity to go on a learning journey ourselves. All children will have the opportunity to show their creativity, engineering and scientific learning throughout the week so please look out for uploads onto our website and twitter pages.

During the week, the children will be learning about all the careers linked to STEAM. On **Monday 28th June**, to begin our STEAM Week, all children are invited to come into school in any costumes linked to our theme. This may include dressing up as a famous inventor, scientist, discoverer or artist. We hope that lots of children will take part in this opportunity to celebrate and discuss the range of careers linked to these subjects within school.

Many thanks for your continued support,

Miss Helen Gilbert
Science Coordinator
