

Maths Mastery Home Learning Challenge

Adult Guidance

What Are We Learning?

We are learning to compare the number of letters in names, using the vocabulary 'more', 'fewer' and 'the same'.

How to Set up the Challenge

- Provide your child with a piece of paper and a pen or pencil.
- Ask them to write their name at the top of the piece of paper and think of the names of friends and family members.
- Help your child to spell the names of family and friends where required.

How to Get Your Child Thinking

- Can you write your name?
- Can you count how many letters are in your name?
- Think of the name of a friend. How many letters are in their name?
- Is that more letters, fewer letters or the same number of letters as your name?
- Can you think of a name that has more letters than your name? How can you check?
- Can you think of a name that has fewer letters than your name? How can you check?
- Can you think of a name that has the same number of letters as your name? How do you know?

Name Game

- Can you write your name?
- How many letters does your name have?
- Can you think of a name of a friend?
- How many letters are in their name?
- Does their name have more, fewer or the same number of letters as yours?
