Vehicle security

Most vehicle crime is opportunistic and happens as a result of a vehicle being left vulnerable or unsecured.

You can help us prevent opportunist thieves from striking by following these tips.

- Park somewhere safe – a garage or a well-lit street.
- Reduce the risk of theft – use alarms, immobilisers and locking devices.
- Obvious targets such as laptops, SatNavs, DashCams should be removed if possible.
- Take valuables with you – handbags, phones, CDs and even loose change can be valuable to a would be thief.
- Every time you leave your car, lock the doors and close the windows.
- Car keys should never be left in the ignition if you are away from your car.
- Thieves will also enter a house to steal car keys. Keep your keys away from easily accessible areas in the home such as window sills and doors.

We want to remind local residents to make sure all of their valuables are removed from their vehicles and you remember to lock your car, so we don't give criminals the easy opportunity to take your belongings.
