

Suicide Intervention Policy

Approved by: Governors	October 2022 Reviewed September 2023
Date of next review: September 2024 in line with CP policy and any amendments to KCSIE	

1. Statement of Purpose

Apley Wood Primary school community is aware that:

1. Suicide is the **leading cause of death** in young people;
2. We play a vital role in helping to **prevent** young suicide.
3. We want to make sure that children and young people at our school are as suicide **“safe as possible”** and that our governors, parents and carers, teaching staff, support staff, pupils themselves and other key stakeholders are aware of our commitment to be suicide-safer aware.

This policy should be read in conjunction with the following policies:

Child Protection and Safeguarding

Child on Child abuse policy

Online Safety Policy

Positive Behaviour Policy

Anti- Bullying Policy

Health & Safety Policy

Mental Health and Well being Policy

Mobile and smart technology policy

Social Media Policy

2. Underlying Principles

Apley Wood Primary School community is aware of/that:

1. **Improve connectedness**. A child or young person who is contemplating suicide may not feel able to access the support of those around them. This may be because of fear, perceived rejection, a sense of shame or embarrassment, or because they fear that they may need to share whatever is causing their thoughts of suicide. They may find this difficult to open up about.
2. It is important to provide **safe spaces and alternative opportunities** for school children to **share their story**. It is important to use language that protects and provides safety and to **cultivate an environment** where nothing is so secret that it can't be shared.
3. **Reduce access to means**. It is important to ensure that the physical environment of our school is as safe as possible. The removal of potential ligature points, restricting access to places which facilitate jumping. Making sure classroom items such as scissors/compasses/pencil sharpeners are monitored when in use and safely secured when not in use. Also the removal of harmful substances from public areas. All these are considerations of how **to reduce access** to potential means of suicide, and this will form part of any health & safety risk assessment.

4. Our school/college will adopt the three underlying principles of **SEE-SAY-SIGNPOST** and select nominated staff members to undertake the **20 minute ZerOSuicide Online Training** module <http://zerosuicidealliance.com/>

3. Our Beliefs about Suicide

We acknowledge that:

1. Suicidal thoughts are **common**
2. **We acknowledge** that thoughts of suicide are common among young people.
3. Suicide is **complex**
4. We believe that **every suicide is a tragedy**. There are a number of contributory factors surrounding a suicide and the reasons are often complex and individual to that person. However, we believe that there are lessons that may be learned from each death that may help prevent future deaths.
5. Stigma inhibits learning-**stigma can kill**. We recognise that the stigma surrounding suicide and mental illness can be both a barrier to help seeking and a barrier to offering help.
6. Apley Wood Primary School is committed to **tackling suicide stigma**. In our language and in our working relationships, we will promote open, sensitive talk that does not stigmatise and perpetuate taboos. This will include avoiding the use of language which perpetuates unhelpful notions that suicide is criminal, sinful or selfish.
7. We know that **unhelpful myths and misconceptions** surrounding suicide can inhibit young people in seeking and finding appropriate help when it is most needed.

4. Suicide Intervention

1. At Apley Wood Primary School, we recognise that pupils may seek out someone whom they trust with their concerns and worries. **We want to play our part in supporting any pupil** who may have thoughts of suicide.
2. **Safety is very important**-We know that pupils who are having thoughts of suicide may or may not also be behaving in a way that puts their life in danger (suicide behaviours). School children experiencing suicidal thoughts are potentially at risk of acting on these thoughts.
3. Those who are already engaging in suicide behaviours are also clearly at risk of death or harm. We want to **work with our pupils** who may be thinking about suicide, or acting on their thoughts of suicide.
4. We want to support them, sometimes **working in partnership** with family, care givers and other professionals where this may enhance suicide safety.

5. **Suicide is a difficult thing to talk about.** We know that a child or young person who is suicidal may find it very difficult to make their feelings known and speak openly about suicide. We will equip adults with the **skills to identify** when a pupil may be struggling with thoughts of suicide. These adults will be trained to keep our young people **suicide-safe “as is possible”**.

6. **Talking about suicide does not create or worsen risk.** We will provide our pupils with opportunities to speak openly about their worries with people who are ready, willing and able to support them. We want to make it possible for schoolchildren and young people, and those who support them, to do so safely.

7. This will be in a way that leads to **support and help** where this is needed. We will do all we can to refrain from acting in a way that stops a pupil seeking the help they need when they are struggling with thoughts of suicide.

8. This school recognises that **suicide bereavement has been described as “grief with the volume turned up”** the effects on families, communities and society as a whole are devastating and tragic. This school will support in any way we can and the link below will be signposted as appropriate;

http://www.petesdragons.org.uk/Bereavement_Support_2369.aspx

5. Our Team Responsibilities

1. Our governors and leadership team at Apley Wood Primary School will be clear about how we will respond in the event of a suicide. This commitment and reporting for assistance from outside agencies, when needed, will go hand in hand with our main Child Protection & Safeguarding School Policies.

2. We will have a clear picture of who has received general suicide awareness education and commit to this being refreshed periodically.

3. We will have a clear policy about how staff should work together and engage with parents and external agencies where thoughts of suicide or suicide behaviours are known among our young people. Our DSL and Deputy DSL's will support any staff who have concerns about thoughts of suicide in our children. We will manage the sharing of information in a way that enhances safety.

6. Ongoing Support and Development of our Policy and Practice

1. Our Governors and Leadership Team at the Apley Wood Primary School will keep our practice up to date by maintaining contact with best practice and on-going training.
